***Materials will be distributed for this interactive program so advance registration is required.***

Students can sign up with their math teacher  
or by sending an email to [capoptsaboard@cox.net](mailto:capoptsaboard@cox.net)

**CVHS PTSA MODERNIZATION REPORT**

At the October 22 CVHS PTSA Association meeting the *CVHS PTSA Modernization Report* was presented and adopted. The committee report represents the official PTSA response to the District's Needs Assessment process and prioritizes necessary upgrades and enhancements to our campus.

The committee recommends the following:

- Ø 1) Site enhancements including a Performing Arts Theater with additional classrooms, a completely renovated Physical Education Center (lockers, weight room, coaches' offices, wrestling room), an enlarged and reconfigured food service and eating area and full stadium upgrades.
- Ø 2) Facility upgrades especially in areas of educational impact such as technology. Emphasis on the need for video production facilities was of particular importance. Uniform updating of all necessary flooring, panel walls, etc was also noted.
- Ø 3) Immediate and continued attention to health and safety issues including aged portable classrooms, adequate restroom facilities and drinking water and security cameras.

The complete report is now available on the PTSA website ( [www.capoptsa.org](http://www.capoptsa.org) )

[Response to Facility Needs Assessment Overview of Capistrano Valley High School Delivered by HMC September 2007](#)

CVHS is excited to be included in the District process to develop plans which will help determine District standards for high school facilities. It is hoped that this comprehensive analysis and planning will ensure that our 30 year-old campus, as well as all facilities in the District, will equitably serve the educational needs of all of our students.
